

Careers in Care

Kings Park Primary School and Edinburgh College partnership

Introduction

For the next 6 weeks we will be working closely with your child to support their learning and give information on careers opportunities within the care sector.

We will be developing skills, building confidence, problem solving and encouraging independence.

Your child will also be working together with the nursery staff to provide the nursery children with a 'fun day' in the park on 27th Sep.

About the college

We have 4 campuses; Sighthill, Granton, Midlothian and Milton road.

Your child will attend Midlothian college campus.

The children will be at college from 10am-2pm, we will walk together from school to the college, this will replace your daily mile.

Children have lunch in the canteen, please bring a packed lunch.

The class teacher and lecturers will be with you child throughout the time in college.

What we aim to do

We are going to have fun learning about working within care.

We will look at a variety of careers within care as well as the skills we use for many careers.

What will your child be doing in college ?

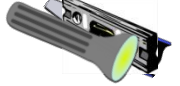

In college the children will have indoor and outdoor classroom experience, these will involve activities, games, videos and power point presentations. ALL classes will be interacting and fun!

The Fun Day!

To support the learning your child will work together with nursery staff to provide a Fun Day for the nursery children at Kings Park. This will be held in the park beside the playground. During this day P6's will work as a member of staff, at the Fun Day as well as in the nursery, to support and encourage the children. This is an exciting opportunity to use some of the skills we've practiced!

Visits

We will be working with a variety of professionals from other areas of the care sector who can share their experience of working within care. The children will have time to work together and ask questions.

Links to the curriculum for excellence

Opportunities to carry out different activities and roles in a variety of settings have enabled me to identify my achievements, skills and areas for development. This will help me to prepare for the next stage in my life and learning.

HWB 2-19a

When I engage with others, I can respond in ways appropriate to my role, show that I value others' contributions and use these to build on thinking.

LIT 2-02a

I can show my understanding of what I listen to or watch by responding to literal, inferential, evaluative and other types of questions, and by asking different kinds of questions of my own.

LIT 2-07a

I will now pass you onto the P6 students who will tell you what they are looking forward to learning at college
